The legacy. Italian Masterpiece.

THE ART OF NATURAL FINISH

Briar wood is king. Free to express the perfection and beauty of its original coloring. As if it were a painter's palette, Socci combines the natural texture of the wood to draw minute and sensational inlaid decorations which make Socci's Collections unique and precious.

Socci's Collections are known worldwide for the wise and careful use of mixed veneers and for its ability to enhance the natural color of the wood, creating colorful and complex decorative inlay thanks to the 100% gloss natural finish (transparent). Socci's mission is to create rich and exclusive ambiance to live and remember in time. The products designed by Socci have a strong and distinctive identity, a *vision de charme* that illuminates and captures the scene.

Today Socci is a firm appreciated to international level in the sector of the luxury furnishings and it is run by Alessandro and Stefania Socci, the founder's sons.

Accurate choice of materials, technical perfection, search for a sumptuous style are from **60 years** the core values that have been guiding Socci's furniture design. KNOW - HOW OF CABINETMAKERS

In the era of globalization and automation, Socci choose to preserve and perpetuate the ancient techniques of **hand-crafted woodworking** for long lasting, high-quality results that are more like piece of art than furniture.

THE ANCIENT ART OF MARQUETRY

Socci's precious inlaid woodworks start with the hand-made design of the decoration which is transferred from paper to raw briar-root. Each single element of the decoration is then pierced on dyed wood foils and assembled manually according to a "male-female" technique in order to get the perfect match of the different veneers and colors.

The wood is like an artist's canvas where Socci creates rich and elegant decorations full of details. The secret is a manual technique, very old and charming, of graduated shading called "Brunitura". It consists in dipping one by one each single piece into hot sand in order to naturally and gradually darken the wood original color. No paint is used, only the master craftsman's skills.

What make Socci design and style really unique and extraordinary is the **100% gloss natural (transparent) finish** which is used to brighten up the decor and make it more intense.

WOODCARVING

Although the technologies of wood processing have evolved over time, Socci continues to complete its hand carved notch using tools inherited from the past: the *gouges*. There are dozens of gouges: large, small, V-tip, round blade. Our wood carvers use them one by one to define and give shape to the details of the carving: rosebuds, grape leaves, crowns, shells, coats of arms.

The carvings by Socci are characterized by a magnificent and **harmonious design enriched by gold leaf coating**.

GOLD LEAF - GOLDEN POEMS

The gold leaf is applied entirely by hand in several stages that require great care: preparation of the base on the rough wood, sanding, application of special glue called "Missione". As if it were a real mission, our decorators apply the thin sheets of gold one by one with the use of gloves to avoid damaging the material, and then perform a light wash with a damp cloth to make the surface smoother. Finally, they apply a fixative antioxidant product and a clear gloss varnish that makes the gold leaf look more intense and brilliant.

Socci uses 2 different finishes on gold leaf:

ORO ANTICATO or COATED - the darkening product called "catramina" is applied manually to penetrate in the reliefs of the notch creating an antiqued effect.

ORO VIVO or NATURAL - gold leaf should be smooth and perfect, as if the furniture was immersed in a bath of gold.

Available also silver, bronze and custom-made finishes on request.

Let surrender in the Garden of Eden, earthly paradise populated by colorful and succulent flowers. Socci's new precious finishings embody the contamination between ancient and modern, light and shadow, desire and temptation thanks to **gorgeous inlaid floral decorations**, the hallmark of the Company since 1962.

The delicate design of this original collection blossoms like Botticelli's Goddess of Spring and Nature. The dress of Flora and the breath of Zephyr comes to life through the **inlaid decor with shades of blue, lilac, orange and green on a Buttercream Erable Finish**.

The Ambassador Collection Versailles blooms in an evocative baroque look with a **Black Erable Finish and Oro Vivo gold details**. The 100% gloss Natural Finish enhances the minute inlaid decoration inspired by a wildflower meadow and its bright colors.

Socci's Collections have an eclectic and timeless design that redefines the concept of classic style furniture for contemporary living and for a cosmopolitan clientele. The skin changes but the soul of Socci products remains unchanged: elegant inlaid decorations, fine textures and selected briar-roots, natural 100% glossy finish and gold leaf details.

EVOLUTIONS

THE EVOLUTION OF NATURAL FINISH

Socci designs a ravishing finish featuring **Polar White Erable briar**. This straw-colored essence of the maple family has a compact and shiny surface that creates a thousand reflexes and delicate shades of light, making the rich inlays and majestic carvings of Versailles even more intense.

Socci also introduces precious materials with bold and intriguing hues like the exclusive Marble Azul Macauba, which gives Soirée Paris contemporary collection an eclectic and distinctive style thanks to its gilded veins in blue tones.

VERSAILLES

Designed by Ni.Ko Design

The Praise of Splendor

Collection Versailles by Socci revives the opulence and the myth of the Roi Soleil's Palace by creating a great ambience where time is outstanding among past and present, the material and the sublime, dream and reality.

Rosewood, olive ash, maple and birch briar draw a delicate floral inlaid frieze. The different wood essences literally intertwine with each other, like an embrace, as if really a sprig of jasmine rolls up around the frame of the furniture.

The golden carved grape leaves are so wide and majestic that seem to extend a blossom to the air. You almost forget that they are the centerpiece of the piece of furniture.

Not the usual upholstered sofa. A large curved panel with inlaid decoration wraps the Versailles sofa set (3 or 2 seater and armchair). This is one of the features that distinguish the design of living room by Socci.

The same does the delicate pattern drawn by the grinding of glass on the china cabinet, embellished with spherical buttons in shiny gold bath which are applied by hand one by one.

LADY S

Pearly Grace

Lady S Collection is inspired by feminine beauty and expresses the distinctive and timeless elegance of Socci's design.

Radiant, seductive, sophisticated, harmonious. Lady S takes shape in the sinuous lines of its curved contours, in the notch that embraces them like a crown of fresh flowers, in the white backlit onyx tops, against the backdrop of an ancient royal residence beautifully frescoed.

Briar woods of Ash, Mayrtle and Maple in their natural color draw a floral ballade with blossoms made of Mother-of-Pearl in a captivating inlaid frieze that celebrates the rich gardens of '700 Italiano.

Lady S. Sophisticated, Superb, Socci.

Carpets

The carpet collection "Jardin du Roi" crosses the boundaries of time and space and brings the gardens of Versailles within the halls of a modern residence to enhance the design of Socci furniture collections.
